

▶ Imaging Center of Fresno, Inc.

August 2, 2010

To Whom It May Concern:

MRI Imaging Center of Fresno has been using Edward French Medical Billing Services since August of 2009. He started with us as temporary support for our in house billing. We offered him the contract to provide all of our billing services effective January 2010.

This speaks highly to his ability to collect, his professional interactions with all staff and patients and the ownership he takes in improving business operations. His collections efforts have netted MRI Imaging Center 25% growth year over year.

We appreciate his principled, responsible and conscientious relationship he has not only with our facility and patients but with our doctors, lawyers and insurance companies. He provides timely reports and communications on the status of our different collections aspects.

Edward is a highly valued component of MRI Imaging Center's success and we gladly recommend his billing services.

Sincerely,

MRI Imaging Center of Fresno, Inc.
